April 8, 2011

Dear Hildreth Elementary School Parents and Caregivers,

The process of composing class lists to create balanced classes for next year is underway. A team of staff members factors in gender, academic achievement, behavioral/social challenges, special education needs and programs, and the pairings of students that may/may not work well together.

Hildreth Elementary teachers are highly qualified professionals who provide opportunities for each student to succeed, and they teach under the same umbrella of common core values, curriculum standards, and best instructional practices. Requests for specific teachers and classmates are not accommodated due to the complexity of satisfying multiple requests. Each student will have his/her needs met regardless of the assigned teacher, and we make every effort to place students with several members of their current class.

If you would like to communicate a specific concern about your child, please visit our website for a copy of the Parent Feedback form. *All forms must be received no later than **Friday, April 29**.* However, do not feel obligated to contact us. We will utilize the wealth of information we already have to create appropriately balanced classes that promote the success of all students.

Sincerely,

Suzanne Mahoney

Suzanne Mahoney
Interim Principal
