

### **Fiscal Management Goals**

The School Committee recognizes that the operation of its schools, though secondary to the primary function of overseeing the educational program, is an essential concern. Facilities and services support educational endeavors.

The School Committee expects, therefore, that through the leadership of its Superintendent, the schools, equipment, and services will be maintained at a level of efficiency commensurate with the expectations of the community and their demonstrated support. The School Committee also expects the Superintendent to establish businesslike procedures for fiscal accounting, purchasing, and management of equipment and supplies.

ADOPTED:            March 17, 1975

AMENDED:           December 5, 1988; September 11, 2006
