

## **School Business and Facilities Operations**

Core components of an effective education program include the efficient and properly functioning business management policies and procedures, including the administration of an appropriate maintenance program.

The School Committee looks upon business operations of the school system as essential to the central function of the public schools, which is education.

The School Committee recognizes that it serves as trustee of school facilities and overseer of school business operations for the purpose of providing the facilities and services that will support a good educational program.

The School Committee expects the operation and maintenance of the school facility, equipment and services to set high standards of safety, to promote the health of students and staff, and to reflect the aspirations of the community.

The administration will establish an effective and practical maintenance program in hopes of assuring long and fruitful use of school sites, facilities and equipment.
